### 1. GENERAL

a. The City policy for extending water and wastewater service is to extend service on an as required basis when development applications or subdivision plats are submitted to the City in accordance with the City's subdivision and development ordinances.

b. Landowners may be required to fund capital improvements necessary to provide service in a manner consistent with law. # EXHIBIT "A"

## 2. POLICE PROTECTION, FIRE PROTECTION AND EMERGENCY MEDICAL SERVICES

The City Council of the City of Bridgeport, Texas finds and determines it to be unnecessary to acquire or construct any capital improvement for the purposes of providing police protection, fire protection, or emergency medical services. The City Council finds and determines that it has at the present time adequate facilities to provide the same type, kind and level of protection and service which is presently being administered to other areas already incorporated in the City of Bridgeport, Texas, with the same or similar topography, land use and population density, without reducing by more than a negligible amount the level of fire, police and emergency services provided within the corporate limits of the City.

## 3. WATER FACILITIES

The City Council of the City of Bridgeport, Texas, has determined that the area to be annexed is within the West Wise Special Utility District Certificate of Convenience and Necessity (CCN), and water will be provided by that entity. Therefore, capital improvements are not necessary to provide full municipal services for water.

Service extensions will be available in accordance with City's utility policies and ordinances.

## 5. ROADS AND STREETS

The City Council of the City of Bridgeport, Texas, has determined that the area to be annexed abuts Highway 380 which is a public roadway owned and maintained by the Texas Department of Transportation (TxDOT). Maintenance of properly dedicated roads and streets will be consistent with the maintenance provided by TxDOT and/or the City to other roads and streets in areas of similar topography, land use and subdevelopment of the annexed property. If necessary, developers will be required pursuant to the ordinances of the City of Bridgeport, Texas, to provide internal and peripheral streets and to construct those streets in accordance with the specifications required by the City of Bridgeport, Texas, for the properly dedicated street. ## SPECIFIC FINDINGS

The City Council of the City of Bridgeport, Texas finds and determines that this proposed Service Plan will not provide any fewer services, and it will not provide a lower level of service in the area proposed to be annexed than were in existence in the proposed area at the time immediately preceding the annexation process.

Because of the differing characteristics of topography, land utilization and population density, the service levels which may ultimately be provided in the newly annexed area may differ somewhat from services provided other areas of the City of Bridgeport, Texas. These differences are specifically dictated because of differing characteristics of the property and the City of Bridgeport, Texas will undertake to perform consistent with this contract so as to provide the newly annexed area with the same type, kind and quality of service presently enjoyed by the citizens of the City of Bridgeport, Texas who reside in areas of similar topography, land utilization and population.
